23.	1250		Bn S-3/Bde S-3: Subject artillery and medevac; Artillery questions from Bn S-3 to Bde S-3 please clarify artillery policy on giving ground companies initials for fire clearance. In past several days we have had problems arising when asking for artillery fire from Lolita concerning the requirements for ground companies initials when the range has been 700, 800 to 1000 meters from friendlies. The Bn is asking for clarification on this policy. 1350H, the companies will be out to see the BN CO to explain and clarify the policy. Medevac asked Bde on clarification on medevac policy. We have been told the only time we can use them is when the patient is classified as urgent. It is important in this terrain to cut a medevac on the LZ. This would require at least 1 full days work and then only if the unit had chain saws and demo equipment. 1350H, policy will be clarified and we'll be notified on policy. DB
